W ENDING SHELTER COUNT (12/31/2008)	378	765	1143

In a perfect world, the Ending Count is equal to the Beginning Count (A) plus Total Intake (F) minus all Outcomes (R+V). ----->

	568	1076	1644
--	-----	------	------

If your reported Ending Count does not match these numbers, please go back through your data and be sure you didn't miss something (i.e., animals in foster, adoptions, transfers, etc.). If all animals have been accounted for and the reported Ending Count is different, please indicate in the comment section.

COMMENTS: It appears that the biggest discrepancy in Ending Count versus Beginning Count has come from SW Washington Humane Society which underwent a computer program switch. All other shelters are working to finetune their statistics longterm to reconcile the difference. C and J are still not the same but have made large improvements compared to the previous year. It is assumed that some of the discrepancies come from kittens transferred to foster programs.

Total Live Release Rate: 67.23 % Dogs: 83.66 % Cats: 57.10%

I agree that in completing this form, we have used the Maddie's Fund definitions of "Healthy," "Treatable - Manageable," "Treatable - Rehabilitatable," and "Unhealthy & Untreatable" as set forth in the attached document titled, "Maddie's Fund® Categorizations/Definitions of Shelter Animals."
